POSTER PRESENTATION GUIDELINES

A concise procedure for a **Poster Presentation Format** in **A0** or **A1** Sheet (either **portrait** or **landscape**) is given below:

1. **Title**:

   - Title, author(s), affiliation (if any), date, and event.

2. **Abstract**:

   - 50 to 150 words

   - Topic introduction and importance.

   - Overview of the paper's structure.

3. **Problem/Objective**:

   - Clear statement of the research problem.

   - Why it matters.

4. **Architecture Diagram**:

   - Research methods, data collection, analysis.

5. **Proposed System:**

   - Key findings with visuals.

   - Discuss significance.

6. **Scope & Advantages**:

   - Interpret results and relate to the problem.

   - Implications and limitations.

7. **Conclusion**:

   - Summarize main points and contributions.
   - Suggest future research.

Remember to adjust the content and style to the specific requirements and preferences of your audience and event.

The poster needs to be printed on a A0 or A1 Sheet either in portrait orientation. Also, you can print the poster in Flex / Banner material which is available in our college DTP itself at a low cost.

In worst case, you can use a big chart of light colour. And present it cleanly.

Design Tips for Poster Presentations:

- Use a clean and uncluttered layout.

- Ensure readability by using a large and legible font.

- Maintain a consistent visual style and color scheme.

- Keep the poster visually engaging with relevant images and graphics.

- Use bullet points and concise text for easy comprehension.

- Make sure the flow of information is logical and easy to follow.

- Practice your presentation to explain your poster effectively.
